

# CHARTER SCHOOL ADVOCACY DAY 2025

TUESDAY, JANUARY 28TH, 8:30 AM - 1:30 PM

MCNICHOLS BUILDING & COLORADO STATE CAPITOL BUILDING

FREE

**W**e're excited to again host charter students, teachers, and leaders from across the state for this unique advocacy and leadership opportunity. Attend this event to learn about the legislative process, garner helpful tips about effective advocacy, understand current education bills and how they could affect charter schools, and visit the Capitol to directly engage with your elected officials.

Charter middle and high school staff from across the state are encouraged to bring a group of students (5-10 students per school) to participate in this important day of learning and advocacy. Additionally, charter school parents, teachers, administrators, board members, and supporters are welcome to attend. We will spend the first part of the morning preparing to visit the state Capitol through training, role-playing, and plenty of practice! We'll then have lunch and head to the Capitol to meet with legislators and staff to share about our unique schools and why we need their policymaking support.

We are stronger together. The more charter school advocates attend, the stronger the message we send to legislators about the importance of charter public schools and their students across the state.

Don't miss out on this memorable event! To keep your spot, final confirmation on your students, email addresses, and phone numbers will be required by December 6th. If you need travel support to attend the in-person event, please contact us at [advocacy@coloradoleague.org](mailto:advocacy@coloradoleague.org) to discuss available resources.
