A Prospectus for supporters of charter schools

Thank you for considering support for the Colorado League of Charter Schools' **2025 Leadership Summit on Friday, October 10, 2025**. As the only charter school advocacy organization dedicated to leading the entire Colorado sector forward, we're proud to convene the sector for our fall gathering at this critical time. With so many issues surrounding education, from school board elections, to national issues, to charter school politics, to our most pressing issues of students and their performance, it is important now more than ever that we gather to focus on how we move forward together.

The Leadership Summit is *part one of two* along with our annual conference intended to demonstrate the idea of how, together as a larger community, we take steps across all fronts to ensure that through strong advocacy, policy, legislation, student focus, quality, and growth along with all our partners, our schools, our communities, schools, parents, schools, and nonprofits who make up this space we lead **Forward Together**. Please also consider joining us in February for our Annual Conference (See our website for details on our second event).
