Fragmented Coaching & Support

The Challenge

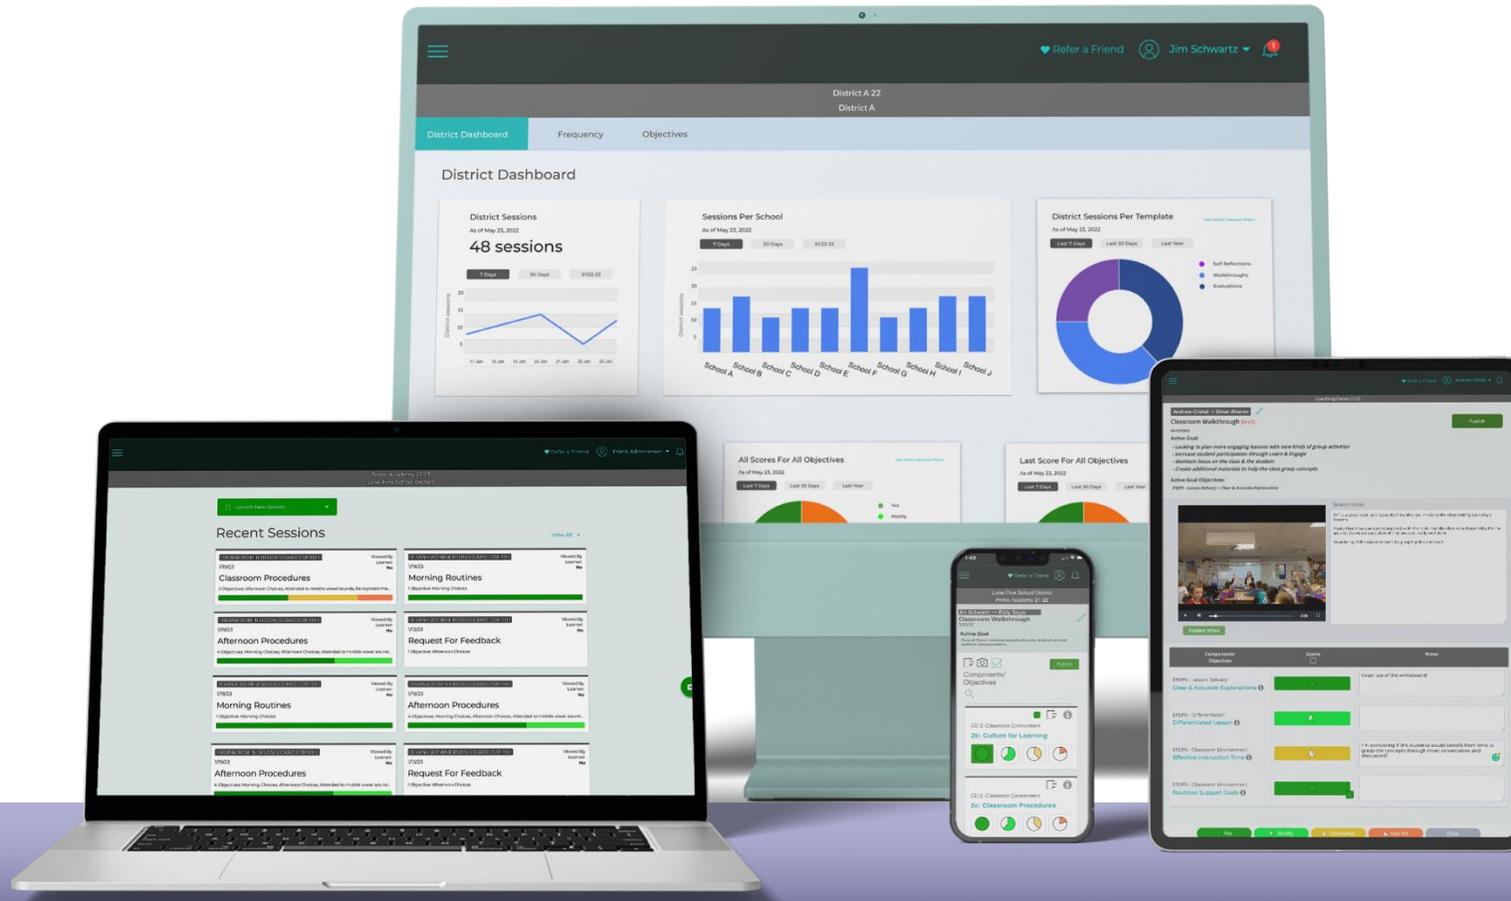

There was lack of coherence in systems being used for walkthroughs, coaching, and instructional support.

- Observations and evaluations were being documented, but **not in a consistent manner** from classroom to classroom, and **not in alignment with CDOE standards**.
- The real coaching was happening *between* learning walks, and that work was **inconsistently recorded**.
- Struggling teachers were receiving **scattered, inconsistent feedback**, leading to **ineffective interventions**.

Do you have the necessary **tools & systems** to make this **school-wide** transformation?

THE BULLSEYE PLATFORM

Your All-In-One Instructional Support System, designed to streamline walkthroughs, coaching, and feedback.

Bullseye's Unified Instructional Support System

The Solution

Bullseye Brings Everyone Into the Same Coaching Cycle:

- **Real-Time, Structured Feedback:** No more scattered notes or informal discussions that get lost—Bullseye is your one-stop shop for all things instructional support.
- **Data-Driven Coaching:** Leaders can quickly analyze school-wide and individual teacher trends over time to identify areas for support.
- **Streamlined Collaboration:** Principals, coaches, and teachers work in unison, focusing on the teacher's highest-priority needs.
