Grant Overview

In June 2024, the Colorado League of Charter Schools (the League) applied for a five-year Charter Schools Program (CSP) grant to support the growth and quality of charter schools across Colorado.

- **Initial award:** \$68.1 million (October 2024)
- **Supplemental award:** \$9.3 million (September 2025)

Project Objectives

The GSC project is designed to:

How Funds Are Awarded

To carry out these objectives, GSC provides competitive subgrants to qualified charter school developers and operators to support:

- **The first two years of implementation** for new seat growth

Subgrants are awarded across three categories:

- **Expansion** of existing high-quality charter schools
- **Replication** of proven high-quality charter school models
- **New school development** based on models with a demonstrated record of increasing student achievement

Applicant Eligibility

Letter of Intent & Eligibility Questionnaire

Before gaining access to the full application, applicants must submit a Letter of Intent and complete an Eligibility Questionnaire in Foundant. If responses indicate that an applicant may not meet eligibility requirements, the GSC team will follow up to confirm details before making a final determination.

The following documents must be uploaded as part of the Eligibility Questionnaire in Foundant:

- Enrollment Chart
- High-Quality Eligibility Data
- Executed Charter Contract or Assurance of application before the subgrant application deadline, March 9th.

Eligibility Questionnaire - What it Covers

The questionnaire verifies the following required federal eligibility elements:

1. Federal definitions of a charter school and developer
2. Authorization (or application to an authorizer) to open, replicate, or expand
3. Whether the school or organization has received CSP funding within the past 5 years
4. Subgrant type, including growth and high-quality requirements for replications and expansions
5. Proposed growth plans
6. Planned opening or expansion date

High-Quality Requirement (Expansions & Replications)

For expansion and replication proposals, the existing school must meet the federal and GSC definition of a high-quality charter school.

Under federal law (ESEA §4310(8)), a high-quality charter school demonstrates:

- **Strong academic results**, including student growth
- **No significant issues** related to student safety, financial or operational management, or statutory or regulatory compliance
- **Demonstrated success in improving student achievement** for all students served
- **Demonstrated success in improving outcomes for student subgroups**, where sufficient data are available

Evidence of High Quality – Required Documentation

To verify high quality in Colorado, applicants proposing an expansion or replication must upload:

- **Academic Performance Data**
 - Most recent Colorado School Performance Framework (SPF)
 - If SPF data are limited, include additional schoolwide and subgroup performance data from nationally normed or standards-based assessments
 - Clearly identify any substitute measures used
- **Financial Performance Data**
- **Authorizer Assurance**
 - Documentation confirming **no significant issues** related to student safety, financial or operational management, or statutory or regulatory compliance

Expansion

Expansion is defined as a significant increase in enrollment or the addition of one or more authorized grades at a high-quality charter school. An expansion may include:

- **Increasing seats by at least 25% within a grade level**
(e.g., adding 25 seats to a grade that currently has 100 seats)
- **Increasing total school enrollment by at least 25% across grades**
(e.g., adding 50 seats to a school with a current enrollment of 200)
- **Adding one or more authorized grades not currently served**
(e.g., expanding from K–3 to K–5 when the school is authorized to do so)

Replication

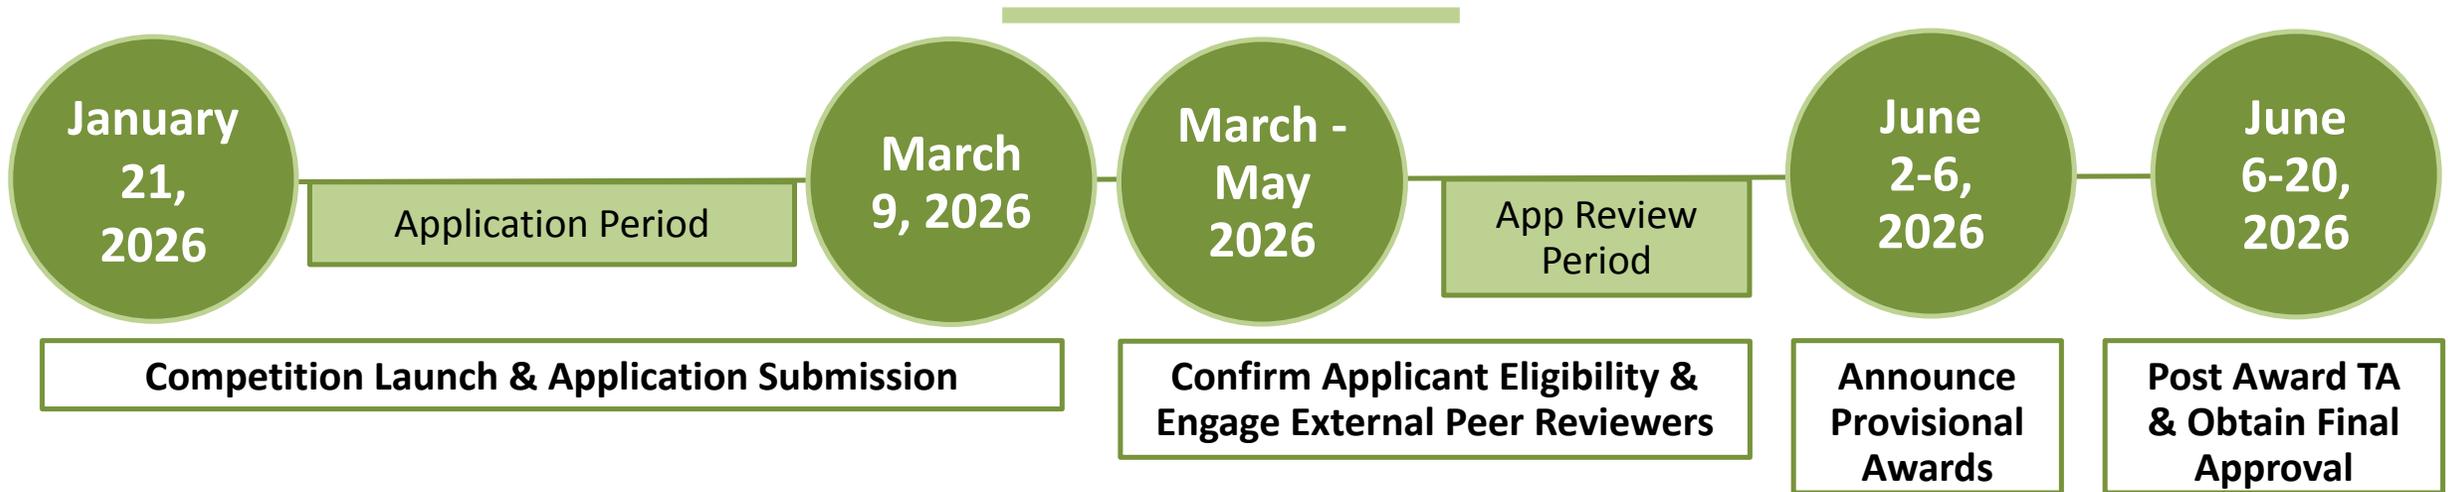

Replication is defined as opening a new charter school or a new campus based on the educational model of an existing high-quality charter school. A replication may include:

- Opening a **new charter school** using a proven, high-quality model
- Opening a **new campus** of an existing high-quality charter school
- Operating under an **existing charter or a new charter**, as permitted or required by state law

Moving buildings does not qualify as adding a campus for replication or expansion.

Budget Template and Narrative

Applicants **must** download and complete the GSC Budget Template and submit it along with a Budget Narrative in Foundant. If an award is made, a formal CSP budget will be finalized with the GSC team.

The Budget Narrative should:

- Link costs to project goals and activities
- Indicate whether costs fall in planning or implementation
- Justify each line item
- Explain how costs were calculated (e.g., units × rate)

This information allows GSC to verify that proposed budgets are aligned, reasonable, and allowable.

Completing the CSP Budget-

Attachment 16

1. Instructions for completing the CSP budget can be found in APPENDIX B of the RFA.
2. The template to use for the budget itself is linked in the RFA and Foundant and can be found on the GSC website.
 - a. This template is **the only format** in which an applicant may submit their CSP budget as attachment 16.
 - b. The earliest date for allowable expenses to included in this budget for cycle 2 is July 1, 2026 contingency upon an approved budget, executed charter contract, and executed GAN.
3. Additional budget guidance will be provided at the budget webinar to be held on February 12th at 8:30 MTN. Mandatory office hours with applicants will be scheduled once applications are opened.

Review Process

Five phases of the application review process:

The Grant Team will use a 3-member external peer review team to study, review, analyze and grade all subgrant applications.

Reviewers are recruited through a Call for Reviewers at competition launch. Those identified, undergo training and are asked to disclose any known or perceived conflicts of interest and to uphold confidentiality to ensure a fair process.

1

Publicization – Information is shared via webinars, conferences, and online platforms to ensure broad awareness.

2

Pre-Award Trainings – Trainings are conducted to guide applicants through the process, and to emphasize strategic use of funds and best practices for sustainability.

3

Subgrant Application – Eligible applicants submit proposals addressing project goals, budget plans, and student impact.

4

Peer Review – Involves scoring, discussions, and calibration to ensure fairness. Final scores determine applicant rankings, with funded applications publicly disclosed. Significant variance in reviewer scores will trigger a 4th reviewer to assess before final ranking decisions are made.

5

Award Finalization – Final awards are based on available funding, with top-ranked proposals prioritized, and as needed, required changes to obtain final approval.
