

CHARTER SCHOOL AMBASSADORS

The greatest advocates for charter schools in Colorado are those at the heart of the charter school community - teachers, school staff, and parents. At the Colorado League of Charter Schools, we encourage all members of the charter school community to raise their voices and engage in advocacy to ensure all children in Colorado have access to high-quality public school options.

For individuals in the charter school community that have a passion for advocacy work and want to take their engagement to the next level, we are launching our Charter School Ambassadors (CSA) program for the 2023-2024 school year. CSA will provide **skill building, leadership development, and statewide networking opportunities to their members all with the goal of influencing positive change and support of quality laws and policies for charter schools across Colorado**. CSA members will act as ambassadors for charter schools both within their own communities as well as on a state and national level in partnership with the League.

Goals for CSA:

- To develop members' advocacy and leadership skills to be a champion for your school and charter schools across the state
- To provide the needed tools for members to engage others in their school and community in charter school awareness and advocacy
- To create a more collaborative relationship between your school and the League for policy agenda development

Responsibilities of a CSA:

- Attend scheduled meetings/trainings (start times to be determined following REGISTRATION)
- Share and increase awareness of League advocacy resources and opportunities within your school community
- Cultivate and maintain relationships with your local policymakers and media with support from the League

Important dates:

- [Registration](#) Deadline: Monday, June 3, 2024
