

Bringing Your School's Math Vision to Life

Join us at Downtown Denver Expeditionary School (DDES) to learn about our journey to create a student-centered, joyful, and rigorous math culture. Participants will learn about how we used [EL's 10 Steps to Success](#) to change the math culture at our school and our continued work to provide high-quality math instruction that is inclusive of all students and stakeholders.

Participants will walk away with...

1. ...a clear picture of the steps our school went through to fundamentally change how we teach math.
2. ...methods to build shared ownership and facilitate collaborative visioning with all math stakeholders.
3. ...teaching, coaching, and leadership practices that will help align math instructional practices with what we know about how children learn best.

November 28th or 29th - Denver, CO

Participants select one day to join, the sessions will be the same both days

Cost: \$100 per participant

Agenda for the Day

Opening

Getting to know our math story at DDES

- Math Visioning
- Strategic Planning
